Notes on Project 35.2827

*5/1/62
Orig. project
Ch. 1, 2, 3, 4
2. 10. 58
80*

General Suggestions

1. Summary too detailed. Move most or all of these tabulations into body of text which currently lacks a sufficiently detailed discussion of over-all production. Make Summary a real gisting of the highlights and trends.
2. Table 3 is useful for a study of individual ships, but is hard to use for total production by general category and country. Add a new table summarizing 1956-60 production by country and category as suggested in attached notes.
3. China is not a Satellite.
4. Note changes in rounding as suggested in text and attached notes.

Specific Suggestions

Summary, P. a., 1. 8

Tonnages will add exactly if vessels for domestic retention are rounded up to 1,123,000 GRT.

P. b, 11. 4-5

Summary is in a sense more detailed than text, which groups together China and European Satellite imports from West, whereas Summary deals with totals by country.

P. b, 1. 4

78.6% or 79%.

P. c, first two tabulations

Note changes in rounding.

These tabulations are too detailed for the Summary and more properly belong under the discussion in III. 3. Total Sino Soviet Bloc, p. 5. Make the Summary a real summary of highlights.

P. c, third tabulation

This subject not adequately treated in text. Numbers are not shown by country in any of text or appendix tables or tabulations. Numbers are in Table 3, but are organized there by class of ship. Suggest a new appendix table, to follow table 3, summarizing production by country and by the four ship categories, for the period 1956-60. Move the tabulation

~~SECRET~~

SECRET

on p. c. down to III. B.

P. 1, para. 1, l. 8

Production is determined, but statistics are obtained.

P. 1, l. 23

China not a Satellite.

P. 3, Tabulation

Bulgaria shows as 8.8% in Table 4 and should therefore be rounded down. Adjust total. Adjust Table 4 as suggested.

P. 3, l. 18

Round Polish total to: about 585,000 GRT.

P. 3, l. 21

Add: about.

P. 3, l. 23

5,400 GRT to Albania.

P. 4, l. 6

Change nearly 183,000 to about.

P. 4, ll. 7 and 15

Change Satellites to Bloc countries and Bloc, respectively.

P. 4, l. 18

Fifth in the bloc.

P. 5, l. 6

Almost 3,900.

P. 5, l. 7

Sixth in the bloc.

P. 5, l. 19

Change to: from within the bloc, for clarity. Also on Tabulation, p. 6.

SECRET

SECRET

P. 6, First tabulation

Note minor rounding changes to conform to Table 6.

P. 6, Second tabulation and related text

Note suggested rounding changes to agree with tables.

Fig. 3

Total vessels - not 523 but 530.

Note rounding changes in bloc and over-all total tonnages.

P. 7, Tabulation

Correct other category by inserting tonnage from Table 3 D as indicated.

P. 7, Section V., Title

Suggest: Types of New Vessels Acquired by the Bloc.

Table 3 C

Kazbek total should read 263,328, not 263,378. Totals are not affected.
